"THE INSTITUTE SPOKESMAN"

from

Volume 1, Number 1, March, 1937

to

Volume IX, Number 12, March, 1946

NATIONAL LUBRICATING GREASE INSTITUTE

LAND BANK BUILDING KANSAS CITY 6, MISSOURI

AUTHORS

— A —

ADAMS, E. W.
"Torque-Viscosity Characteristics of Lubricating Greases."
Co-authors: L. C. Brunstrum, E. E. Ziegler.
June 1945—Vol. IX No. 3
July 1945—Vol. IX No. 4
"Performance Testing of Wheel Bearing Lubricants"
Jan. 1945—Vol. IX No. 10

ADAMS, ROBERT C.
"Performance Specifications for Greases"
Co-author: Harrison E. Patten
Sept. 1945—Vol. V No. 6
Oct. 1945—Vol. V No. 7
Nov. 1945—Vol. V No. 8

AINSLEY, WALTER G.
"Report on the Activities of the Coordinating Research Council War Advisory Committee — Grease Advisory Group"
Jan., 1946—Vol VIII No. 11

— B —

BEERBOWER, A.
"Flow Characteristics of Lubricating Greases"
Co-authors: L. W. Sproule, J. B. Patberg, J. C. Zimmer
Nov., 1942—Vol. VI No. 8
Dec., 1942—Vol. VI No. 9
Jan., 1943—Vol. VI No. 10
Feb., 1943—Vol. VI No. 11

BEVIN, SIDNEY
"Grease Production and Fat-Fatty Acid Consumption by the Lubricating Grease Industry"
Co-author: C. S. Georgi
March, 1944—Vol. VII No. 12

BISHKIN, S. L.
"Slushing Type Rust Preventives"
Feb., 1943—Vol. VI No. 11
March, 1943—Vol. VI No. 12
April, 1943—Vol. VII No. 1

BISSETT, GEORGE
"Steering Gears—Design, Adjustment and Lubrication Engineers Keeping Pace with Safety Requirements"
May, 1939—Vol. III No. 2

BLAINS, WALTER E.
"Lubrication Data—Rear Wheel Bearings Lubrication Has Undergone Much Change in Last Few Years"
Dec., 1938—Vol. II No. 9
"Fluid Drive — Hydra-Matic Drive Vacamatic, Simplimatic and Overdrive Transmissions"
Jan., 1941—Vol. IV No. 9
"Servicing Carburetor Air Cleaners"
March, 1941—Vol. IV No. 12
"Servicing Power Shift Vacuum Cylinders"
June, 1941—Vol. V No. 3
"Reviewing the 1942 Cars — What They Need for 1943"
May, 1943—Vol. VII No. 2
June, 1943—Vol. VII No. 3
"Car Manufacturers' Recommendations—Keeping Your 1942 Car Up-to-Date"
Nov., 1943—Vol. VII No. 8
"Reviewing the 1942 DeSoto—What It Needs for '43"
Dec., 1943—Vol. VII No. 9
"Reviewing the 1942 Cars — What They Need for 1944"
June, 1944—Vol. VIII No. 3

BOHMER, CHARLES W. JR.
"Some Technical Aspects of Launching Lubricants"
Sept., 1944—Vol. VIII No. 6
Oct., 1944—Vol. VIII No. 7
Nov., 1944—Vol. VIII No. 8

BRAULT, PAUL G. A.
"Launching 10,000-Ton Cargo Vessels"
July, 1944—Vol. VIII No. 4
Aug., 1944—Vol. VIII No. 5

BRITTON, S. C., CAPT.
"Lubricating Grease Requirements for Modern Military Aircraft"
Co-author: E. R. Irwin
Dec., 1943—Vol. VII No. 9

BROWNE, C. W.
"Modern Packaging of Grease Lubricants"
Oct, 1941—Vol. V No. 7

BRUNSTRUM, L. C.
"Troque-Viscosity Characteristics of Lubricating Greases"
Co-authors: E. W. Adams and E. E. Ziegler
June, 1945—Vol. IX No. 3
July, 1945—Vol. IX No. 4

BRYANT, C. B.
"The Railroad Aspect of Lubricating Greases"
June, 1943—Vol. VII No. 3

BURN, LT. COL. WALTER P.
"War Greases and Chemicals" (Chart)
Oct., 1942—Vol. VI No. 7

— C —

CHITTICK, M. B.
"Standardization Activities Under Way"
August, 1938—Vol. II No. 5
"'N.L.G.I. Grease Classification by Number' Official Adopted"
Oct., 1939—Vol. III No. 7
"Petroleum Lubricating Greases"
April, 1940—Vol. IV No. 1
May, 1940—Vol. IV No. 2
"Rationalizing Lubricating Greases"
June, 1941—Vol. V No. 3
July, 1941—Vol. V No. 4

CHRISTIANSEN, LT. F. A.
"Greases for the Bureau of Ships"
March, 1945—Vol. VIII No. 12

COMBES, K. C.
"An Improved Mobilometer for Measuring Consistency of Fluid and Semi-fluid Greases"
Co-authors: C. S. Ford, W. S. Schaer
Sept., 1940—Vol. IV No. 6

CUMMINGS, LT. COL. C. E.
"Lubricating Grease in Ordnance"
Feb., 1944—Vol. VII No. 11

— D —

DEVINE, ROBERT E.
"Laberatory Boiling of Soap in Glass"
August, 1940—Vol. IV No. 5

DOBBS, J. J.
"Automatic Safety Transmission — The 1939 Oldsmobile"
July, 1939—Vol. III No. 4

— E —

EISENHAUER, C. B.
"Spring Lubrication . . . Metal Covered Springs Offer Opportunities for Easy Riding Cars . . . Proper Servicing of Prime Importance"
Sept., 1938—Vol. II No. 6

EXLINE, PAUL G.
"A Machine for Performance Tests of Anti-Friction Bearing Greases"
Co-author: S. A. Flesher
Sept., 1945—Vol. IX No. 6

— F —

FIRESTONE, HARVEY S. JR.
"Interesting Facts Concerning Automobiles and Their Use of Rubber"
Jan., 1940—Vol. III No. 10

FLESHER, S. A.
"A Machine for Performance Tests of Anti-Friction Bearing Greases"
Co-author: Paul G. Exline
Sept., 1945—Vol. IX No. 6

FORD, C. S.
"An Improved Mobilometer for Measuring Consistency of Fluid and Semi-fluid Greases"
Co-authors: K. C. Combes, W. S. Schaer
Sept., 1940—Vol. IV No. 6

FRASER, H. M.
"Development of Ball and Roller Bearing Greases"
Jan., 1942—Vol. V No. 10

— G —

GALE, R. H.
"Lubrication of Eaton Two-Speed Axle"
Nov., 1944—Vol. VIII No. 8

GEORGI, CARL
"Consistency Tests—Aluminum Cone vs. Standard Steel Cone"
Sept., 1941—Vol. V No. 6
"Technical Sub-Committee Report on the Tentative N.L.G.I. Classification of Semi-Fluid Greases"
July, 1942—Vol. VI No. 4
"Survey of Lubricating Grease Test Methods"

Aug., 1943—Vol. VII No. 5
Sept., 1943—Vol. VII No. 6
"Grease Production and Fat-Fatty Acid Consumption by the Lubricating Grease Industry"
Co-author: Sidney Bevin
March, 1944—Vol. VII No. 12
"The Effect of Mineral Oil Pour Point on the Flow Characteristics of Lubricating Greases"
Co-author: John F. O'Connell
Jan., 1945—Vol. VIII No. 9

REEN, D. H.
"Spring Cooling System Service — What To Do With Permanent Type Anti-Freeze Solutions"
June, 1943—Vol. VII No. 3

— H —

ARPER, H. L.
"Aluminum Rolling Mill Lubrication"
Co-author: E. M. Kipp
Nov., 1945—Vol. IX No. 8

ARRIGAN, WILLIAM
"Memo for the Future . . . Air Conditioning for Passenger Cars"
Oct., 1940—Vol. IV No. 7

OWARD, SUMNER S.
"Air Cleaners . . . Construction — How They Function—Servicing Instructions"
Jan., 1939—Vol. II No. 10

UGGINS, FRANK E.
"Cooling Aluminum Grease"
Feb., 1939—Vol. II No. 11

— I —

RWIN, E. R.
"Lubrication Grease Requirements for Modern Military Aircraft"
Co-author: Capt. S. C. Britton
Dec., 1943—Vol. VII No. 9

— J —

ENNINGS, A. J.
"Central Lubrication for Blast Furnaces"
Oct., 1945—Vol. IX No. 7

— K —

ALISH, D. F.
"Spicer Universal Joints . . . Construction, Design, and Lubrication Requirements of Needle Type Joints for Automotive Vehicles"
Oct., 1938—Vol. II No. 7

AUFMAN, GUS
"Significance of Tests for Lubrication Greases—Consistency"
March, 1939—Vol. II No. 12
"Consistency of Lubricating Greases and Oils at Low Temperatures"
March, 1942—Vol. V No. 12
"Test Methods for Determining Free Acid and Free Alkali in Greases"
Jan., 1944—Vol. VII No. 10

IPP, E. M.
"Aluminum Rolling Mill Lubrication"
Co-author: H. L. Harper
Nov., 1945—Vol. IX No. 8

KNOPF, C. L.
"Grease Consistency Investigations"
Co-author: C. M. Larson
April, 1942—Vol. VI No. 1
"Conical Cup for A.S.T.M. Penetration Test"
June, 1942—Vol. VI No. 3
July, 1942—Vol. VI No. 4
August, 1942—Vol. VI No. 5

KOETHEN, F. L.
"Some Popular Misconceptions About Lubricating Grease"
May, 1944—Vol. VIII No. 2

KRAUS, CHAS. I.
"The Proper Handling and Application of Lubricating Greases"
July, 1943—Vol. VII No. 4

— L —

LARSON, C. M.
"Grease Consistency Investigations"
Co-author: C. L. Knopf
April, 1942—Vol. VI No. 1

LICATA, FRANCIS J.
"Technical Data . . . Aluminum Stearate Type Greases"
July, 1938—Vol. II No. 4

— M —

McCONVILLE, H. A.
"What Greases for Hot Motors?"
Nov., 1939—Vol. III No. 8

McCORMICK, G. D.
"Cooling System Service"
Nov., 1938—Vol. II No. 8

McFARLANE, R. P.
"Shell Rolling Stability Apparatus and Shell Micro Penetrometer"
March, 1943—Vol. VI No. 12

McLENNAN, L. W.
"Barium Grease"
April, 1944—Vol. VIII No. 1
May, 1944—Vol. VIII No. 2

MAAG, O. L.
"Antifriction Bearing Lubricants"
Dec., 1941—Vol. V No. 9

MATTHEWS, RALPH R.
"The National Lubricating Grease Institute Praeteritus, Praesens and Futura"
June, 1944—Vol. VIII No. 3

MAURER, E. R.
"The Chrysler Fluid Drive"
Sept., 1939—Vol. III No. 6

MAXWELL, THOMAS A.
"Low Temperature Characteristics of Greases"
Nov., 1942—Vol. VI No. 8

MEHLENBACHER, VIRGIL C.
"Fat and Oil Microscopy"
April, 1941—Vol. V No. 1

MIQUELON, P. E.
"Detroit Universal Joints . . . A Complete but Short Story of the Construction and Proper Care of New and Older Types"
June, 1938—Vol. II No. 3

— O —

O'CONNELL, JOHN F.
"The Effect of Mineral Oil Pour Point on the Flow Characteristics of Lubricating Greases"
Co-author: C. W. Georgi
Dec., 1944—Vol. VIII No. 9

OLDACRE, W. H.
"Containers"
March, 1944—Vol. VII No. 12

— P —

PARCHE, DR. WM. H.
"Grease Lubrication from the Consumers' Point of View"
Feb., 1945—Vol. IX No. 11
March, 1945—Vol. IX No. 12

PARSONS, FLOYD W.
"Some Encouraging Signs and Tendencies"
April, 1938—Vol. II No. 1

PATBERG, J. B.
"Flow Characteristics of Lubricating Greases"
Co-authors: A. BeerBower, L. W. Sproule, J. C. Zimmer
Nov., 1942—Vol. VI No. 8
Dec., 1942—Vol. VI No. 9
Jan., 1943—Vol. VI No. 10
Feb., 1943—Vol. VI No. 11
"Notes on the Operation and Applications of the S. O. D. Pressure Viscometer"
Co-author: J. C. Zimmer
July, 1945—Vol. IX No. 4
August, 1945—Vol. IX No. 5

PATTEN, HARRISON E.
"Performance Specifications for Greases"
Co-author: Robert C. Adams
Sept., 1941—Vol. V No. 6
Oct., 1941—Vol. V No. 7
Nov., 1941—Vol. V No. 8

PILE, HOWARD J.
"1941 Presents Still Better and More Beautiful Automobiles — Production and Deliveries on Full Scale—Many Lubrication Changes—Brand New Lubricants Hitherto Unknown"
Oct., 1940—Vol. IV No. 7
"Car Lubrication Points Decreasing Slightly"
Nov., 1940—Vol. IV No. 8
"Engine Crankcase Temperature Ranges"
Sept., 1941—Vol. V No. 6
"A. B. E. Bulletin . . . Interpretation of Recommendation No. 40 Amendment"
May, 1942—Vol. VI No. 2
"Wheel Bearing Lubrication"
August, 1943—Vol. VII No. 5
"Transmissions, Differentials . . . Gear Cases on Passenger Cars, Trucks are Self Containing and Carry Own Lubrication System"
Sept., 1943—Vol. VII No. 6

"Earlier Vintage Cars Seeking Service as Wartime Conservation Measure. 1934-36 Cars Recall Models with Spiral Bevel Gears, Spring Bolts, Shackles, Gland Packed Water Pumps"
October, 1943—Vol. VII No. 7

POTTER, E. L.
"Shock Absorber Service . . . Most Neglected Part of Motor Car Really Deserves Systematic Attention"
June, 1939—Vol. III No. 3

PRUTTON, C. F.
Technical Data—"An Outline of Research Development in Gear Lubricating Testing"
Co-author: A. O. Willey
June, 1939—Vol. III No. 3
"Additives for Petroleum Lubricants"
Dec., 1941—Vol. V No. 9

PUDDINGTON, I. E.
"Some Properties of Metal Soap — Mineral Oil Systems"
Dec., 1945—Vol. IX No. 9

— R —

REIMOLD, A. G. H.
"Fatty Acids . . . Preparation, Physical and Chemical Properties, Uses in Soaps and Protective Coatings"
Oct., 1943—Vol. VII No. 7
Nov., 1943—Vol. VII No. 8

REISER, GEORGE E.
"Lubrication of Non-Mettalic Bearings"
Nov., 1944—Vol. VIII No. 8

REYNOLDS, J. R.
"N.F.G. Performance Grease Tests (Grease Torque Machine)"
April, 1945—Vol. IX No. 1

ROBINSON, R. C.
"Separability Characteristics of Lubricating Greases"
Co-author: T. G. Roehner
May, 1945—Vol. IX No. 2

RODGERS, L. G.
"Lubrication of Automobile Bodies"
Feb., 1941—Vol. IV No. 11

ROEHNER, T. G.
"Separability Characteristics of Lubricating Greases"
Co-author: R. C. Robinson
May, 1945—Vol. IX No. 2

ROSEN, HAROLD
"The Lubrication of Rubber—A Ray of Light on a Dark Subject"
March, 1940—Vol. III No. 12
"Rubber Lubricants Preserve Rubber Parts"
June, 1943—Vol. VII No. 3

RUSKAMP, WM., JR.
"Check the Air! . . . For Greater Economy, Safety and Better Performance, Keep All Four Tires Inflated to the Proper Pressures as Recommended by the Car Manufacturer"
August, 1941—Vol. V No. 5

— S —

SCHAER, W. S.
"In Improved Mobilometer . . . For Measuring Consistency of Fluid and Semifluid Greases"
Co-authors: K. C. Combes, C. S. Ford
Sept., 1940—Vol. IV No. 6

SCHOENBAUM, CAPT. GEO. H.
"Lubrication, The Essence of Ordinance Operation and Maintenance"
May, 1942—Vol. VI No. 2
June, 1942—Vol. VI No. 3

SLATER, C. J.
"Buick's New Water Pump — New Pre-Lubricated Type in Production—A Review of Previous Buick Water Pump Designs"
July, 1938—Vol. II No. 4

SNYDER, R. F.
"Conservation . . . or Extinction — The Choice That Faces the Civilian Trucking Industry"
Sept., 1942—Vol. VI No. 6

SPEED, FREDERIC R.
"Breaking in a New Engine . . . The Precautions Necessary and the Reasons for Them"
July, 1941—Vol. V No. 4

SPIKERMAN, F. W.
"Pressure Type Cooling System"
Jan., 1940—Vol. III No. 9

SPROULE, L. W.
"Flow Characteristics of Lubricating Greases"
Co-authors: A. BeerBower, J. B. Patberg, J. C. Zimmer
Nov., 1942—Vol. VI No. 8
Dec., 1942—Vol. VI No. 9
Jan., 1943—Vol. VI No. 10
Feb., 1943—Vol. VI No. 11
"Some Practical Methods for the Evaluation of Lubricating Greases"
Feb., 1945—Vol. VIII No. 11
March, 1945—Vol. VIII No. 12

STAMBAUGH, T. H.
"The Hudson Oil Cushioned Clutch—The Official Factory Story on its Design, Operation, Service Procedure and Lubrication"
August, 1939—Vol. III No. 5
"Hudson Hill Hold"
July, 1940—Vol. IV No. 4
"Special Lubrication Fittings"
Nov., 1940—Vol. IV No. 8

SUTSON, A. C.
"Grease From the Container to the Bearing"
Sept., 1942—Vol. VI No. 6

— T —

TABER, EARL M.
"Servicing Hydraulic Brakes"
May, 1944—Vol. VIII No. 2

— W —

WELL, L. E.
"New Type Willard Battery Cap — Correct Solution Level Important — Too High is as Bad as Too Low—Winter Care of Batteries"
Feb., 1940—Vol. III No. 11

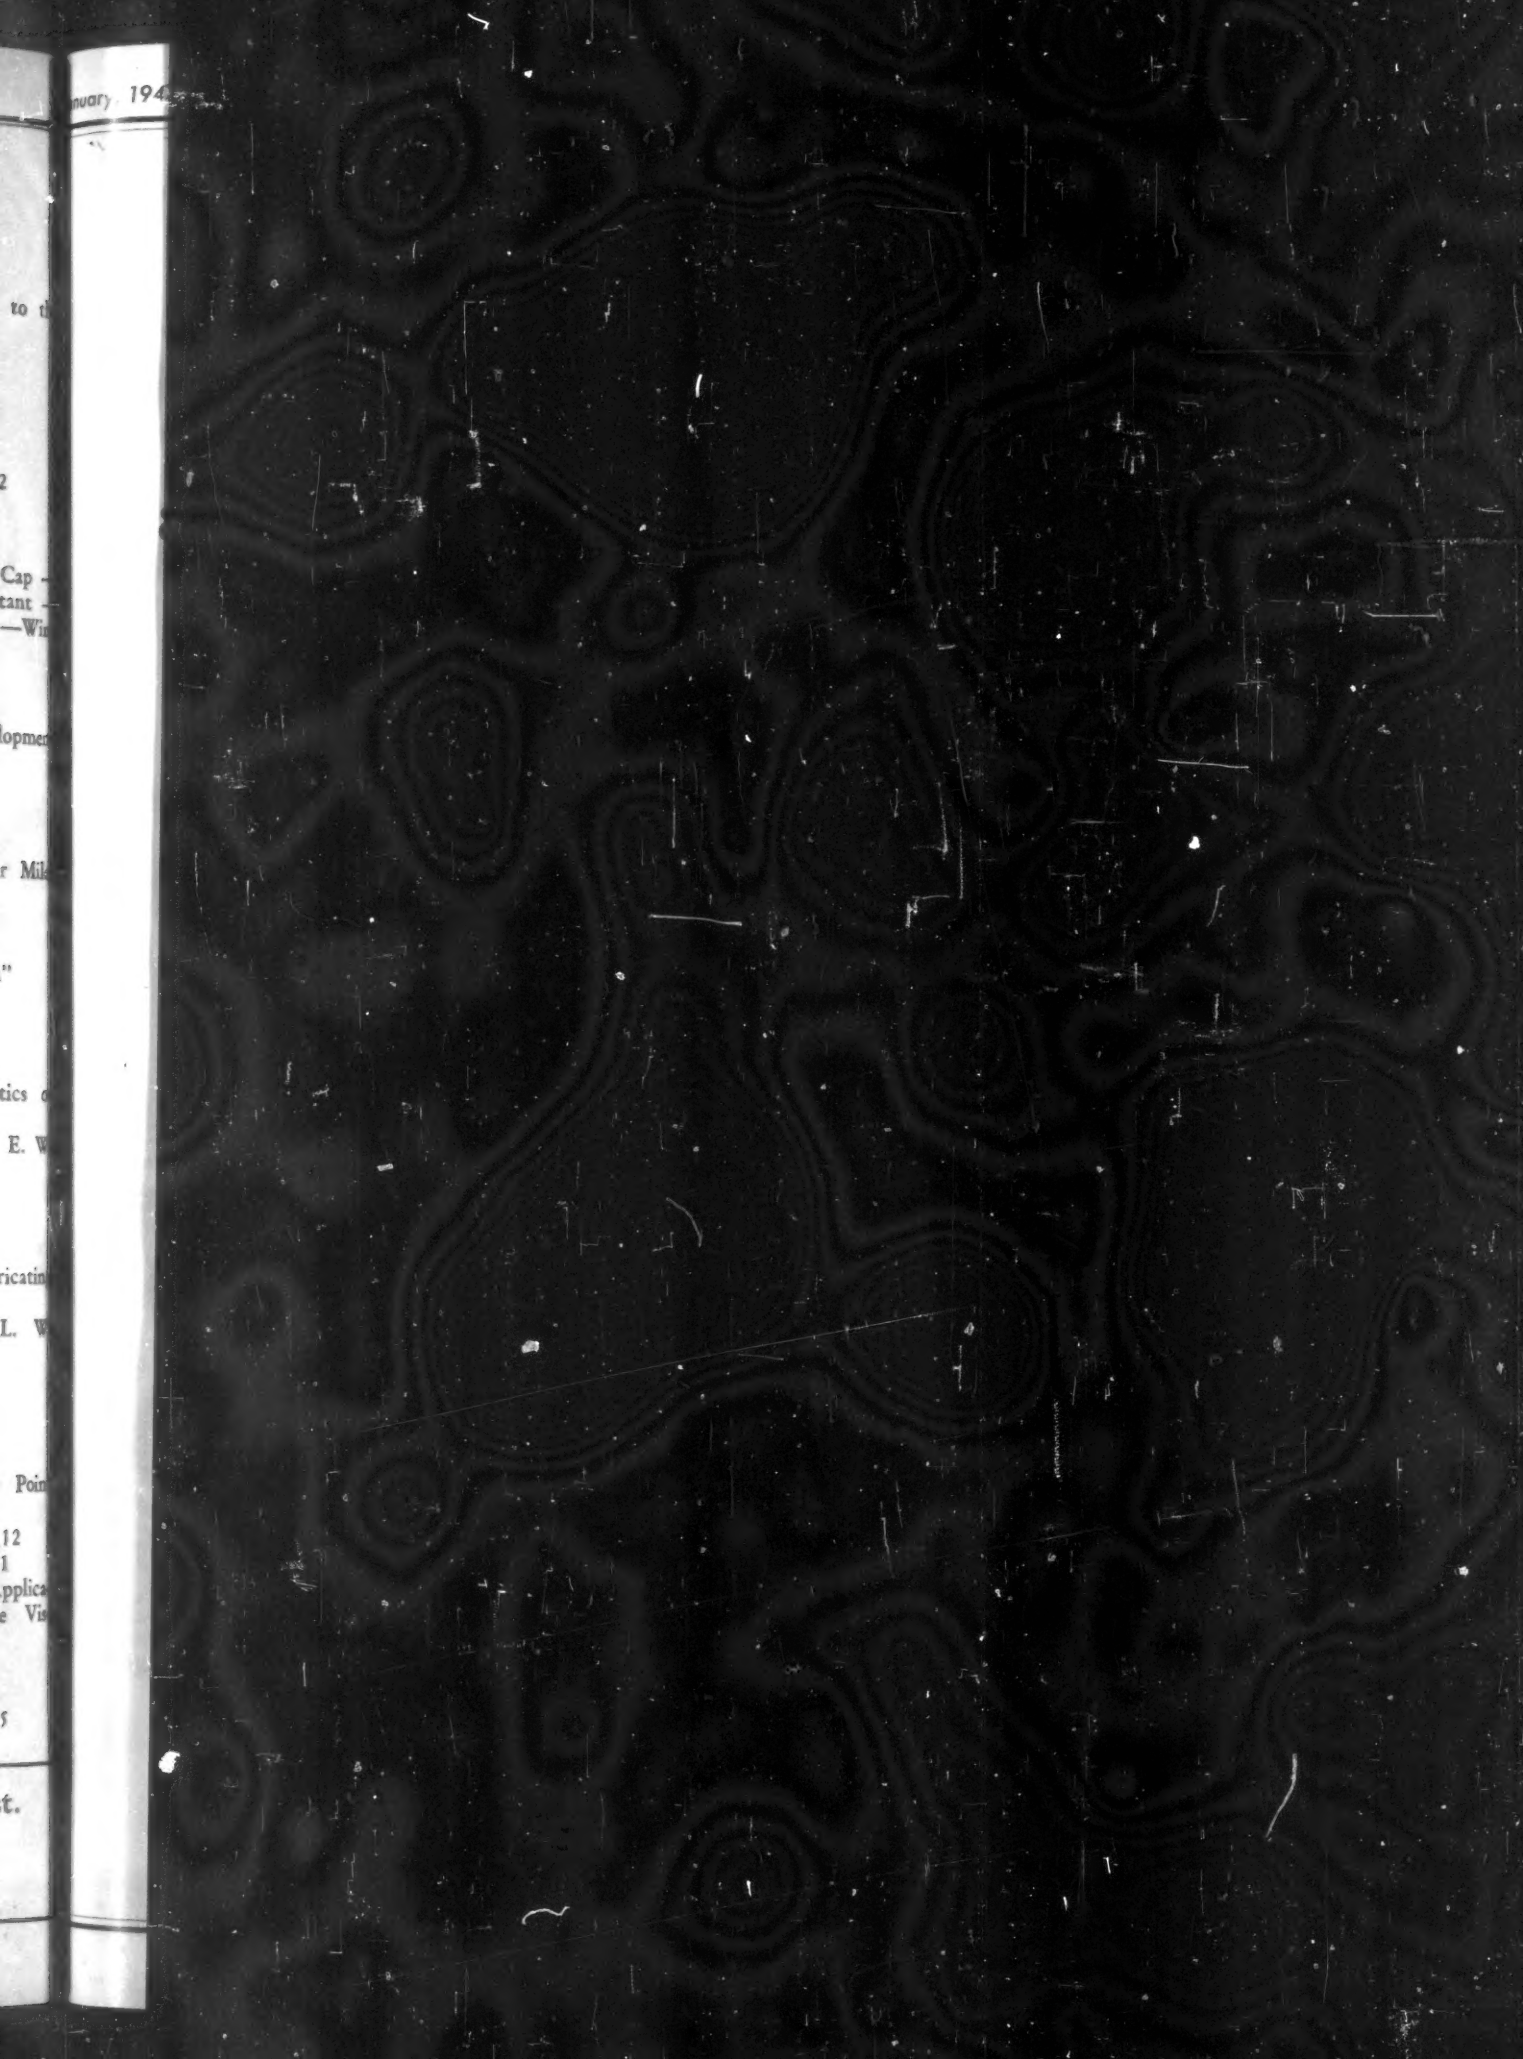
WILLEY, A. O.
"An Outline of Research Developments in Gear Lubrication Testing"
Co-author: C. F. Prutton
June, 1939—Vol. III No. 3

WILSON, DON O.
"Some Service Changes Under Mileage Rationing"
July, 1943—Vol. VII No. 4

WOLF, H. R.
"Automotive Gear Lubrication"
Nov., 1941—Vol. V No. 8

— Z —

ZIEGLER, E. E.
"Torque-Viscosity Characteristics of Lubricating Greases"
Co-authors: L. C. Brunstrum, E. W. Adams
June, 1945—Vol. IX No. 3
July, 1945—Vol. IX No. 4

ZIMMER, J. C.
"Flow Characteristics of Lubricating Greases"
Co-authors: A. BeerBower, L. W. Sproule, J. B. Patberg
Nov., 1942—Vol. VI No. 8
Dec., 1942—Vol. VI No. 9
Jan., 1943—Vol. VI No. 10
Feb., 1943—Vol. VI No. 11
"Report on Grease Dropping Point Methods"
March, 1944—Vol. VII No. 12
April, 1944—Vol. VIII No. 1
"Notes on the Operation and Applications of the S.O.D. Pressure Viscometer"
Co-author: J. B. Patberg
July, 1945—Vol. IX No. 4
August, 1945—Vol. IX No. 5


If you would like to have additional copies of this index, they are available at no cost.
Send your request to Mr. Carl E. Bolte, Executive Secretary.
